LADYSMITH TO GIVE UP? RUTH CONDE'S LONDON RUMOR SAYS SO. ELOPEMEN

was a glimmer of comfort to Englishmen.

Nevertheless, there was an ominousness in the meeting of the Committee which was not overlooked. Gloomy forecasts were made, and all kinds of rumors were affoat, from foreign complications to disastrous retreats.

The meeting of the Defense Committee of the Cabinet was held at the War Office this afternoon. Sir Michael Hicks-Beach, the Chancellor of the Exchequer, came to London purposely to attend, and Mr. Joseph Chamberlain, the Secretary of State for the Colonies, gave up other engagements for the same reason.

Lord Wolseley, the Commander-in-Chief of the Forces, was also present at the meeting of the Committee.

Lord Salisbury presided at the meeting. There are reiterated rumors that the gravest kind of news from Natal is being concealed by the War Office. is even said that Gen. Buller's forces are in full retreat.

It is impossible to confirm or deny the reports current, as the war officials maintain silence. They say they have nothing for publication. But it is evident from the War Office announcements that the casualties reported by Buller occurred in Lyttleton's Brigade, which apparently was not engaged at Spion Kop, and that there has been severe fighting not yet reported.

The National Defense Committee of the British Cabinet is, in the present crisis, the most important body in the nation. Before it are laid the plans of generals in the field and it discusses means and methods of offense and defense. Either very great developments may be looked for in South Africa or European complications are possible owing to the so far successful resistance of the Boers.
